9:15-10:00 AM **Cyber Fraud** - *Bill French, VP Risk Management, Fidelity Investments*
Cyber threats continue to grow in number and sophistication. Just as technology advances, so do the tools cyber criminals use to steal from clients. Join SS&C Advent's advisory team to learn about the four-time award-winning Black Diamond® Wealth Platform. The third generation of the platform is designed to make it easier for you to connect on a deeper level with clients. Learn how it will make your days easier!

12:45-1:45 PM **The New Fiduciary Standard** - *Jim Febeo, Senior VP Government Relations, Fidelity Investments*
The Department of Labor's new fiduciary rule will expand the types of retirement investment advice covered by fiduciary protection. Under DOL's current definition, any advisor seeking compensation for providing advice that is client specific will now be a fiduciary – the suitability standard is out. Jim will discuss the impact these changes will have on the industry.

1:45-3:00 PM **The Advisor's Purpose** - *Gene Fama, Jr.*
Innovation in financial science has brought a new and deeper understanding of the relation between risk and return. This has transformed the planner's task. Rather than hunting for performance, the effective advisor now focuses on total plan structure. Gene will discuss how the “new” advisor is free to elevate his function to one that depends less on the whims of randomness and more on creating better investors, sounder strategies, and a stronger practice.

3:00-3:15 PM **Networking Break**
